

ENGLISH LANGUAGE & LOGICAL REASONING

1. Correct Answer: A

Explanation: The passage emphasises rhetorical, ideological, and political polarisation, not imminent warfare.

2. Correct Answer: B

Explanation: Populists argue illegal/mass migration depresses wages, strains services, and harms cohesion.

3. Correct Answer: A

Explanation: Passage clearly notes rising populist ire toward Indian diaspora.

4. Correct Answer: B

Explanation: Populists accuse liberals of undermining sovereignty and enabling global elite interests.

5. Correct Answer: A

Explanation: Final paragraphs stress understanding internal Western differences.

6. Correct Answer: B

Explanation: Populists oppose immigration and favour restrictions.

7. Correct Answer: C

Explanation: Passage urges “micro-level” engagement with varied Western political formations.

8. Correct Answer: C

Explanation: Populist ire against immigration directly threatens Indian diaspora and interests.

9. Correct Answer: A

Explanation: The passage repeatedly connects Western tensions to India’s strategic environment.

10. Correct Answer: C

Explanation: A populist rise reduces globalist, open-border, and liberal internationalist policies.

Legal Reasoning

- 11. (c)** The drummer is causing nuisance, since the constant sound of drums is not justifiable. All the other options are out of context. Therefore, option (c) is the most appropriate answer.
- 12. (b)** A's case would be further weakened if he kept the windows open and therefore aggravated the nuisance he was causing. All the other options are out of context. Hence, option (c) is the right answer.
- 13. (b)** Refer to the lines, "The interference must be unreasonable or unlawful. It is meant that the act should not be justifiable in the eyes of the law and should be by an act which no reasonable man would do." Hence (b).
- 14. (b)** Refer to the lines, "The interference must be unreasonable or unlawful. It is meant that the act should not be justifiable in the eyes of the law and should be by an act which no reasonable man would do." Hence (b).
- 15. (d)** Private Nuisance doesn't have a section to itself. Therefore, option (d) is the most appropriate answer.
- 16. (a)** As has been stated in the passage, there could be no liability at all for a mere negligent misstatement; for the purpose of liability, the statement must be deceitful. A false certificate issued by Gould is more of a negligent act than being in the nature of a deceit.
- 17. (b)** Firstly, there is nothing to show that the bankers had made a deceitful statement. Secondly, Headley and Co. had accepted the condition on behalf of the bankers which mentioned that their statements were made without any responsibility on their part, which basically means that they cannot be held liable for any ramifications that anyone who takes their statements to word might face. Hence, (b).
- 18. (a)** Please note that in the factual scenario presented in the above question, Hedley and Co. had approached Eveready's bankers for information. The bankers did not "undertake" or they "did not take it on" themselves to impart the information. Hence, in such a situation and in light of what is stated in this question, there is no duty of care which arises. Hence, (a).
- 19. (b)** The principle stated in the above question states that when a person is so placed that another could reasonably rely on his judgment or his skill or on his ability to make careful inquiry, that person takes it on himself to give information or advice to another person who places reliance on it, then a duty of care will arise. This squarely applies to the present situation as being Hedley and Co.'s own bank, they were required to do a thorough check of the affairs of Eveready, for which they owed a duty of care.
- 20. (a)** As Hedley and Co. has been affected by the advice rendered by the bank, they can be said to be the neighbours of the bank. Hence, they owed a duty of care. All the other options are out of scope.

General Knowledge

21. A — 1 and 3 only

- DBT implements GIP → Correct.
- It does **not** aim for 1 lakh genomes; goal is 10,000 → Incorrect.
- Over 20 institutions participate → Correct.

22. A — 1 and 2 only

- Genetic drift in India → True.
- Genomics helps identify disease risks → True.
- Genomic data alone cannot explain environmental impacts → False.

23. C — 1, 2, 3 and 4

GIP supports all listed fields — precision medicine, pharmacogenomics, gene-environment studies, predictive healthcare.

24. A — 1 and 2 only

- ICMR issues guidelines → True.
- Informed consent mandatory → True.
- Private companies can participate → False.

25. B — High computational requirements

Large-scale sequencing generates massive data requiring advanced computational resources.

26. A — A database of genetic variants representative of a population

This is the globally accepted definition of a reference genome panel.

27. B — How genetic variations affect drug response

Pharmacogenomics studies how genes influence medication effects, dosages, and side effects.

28. A — 1, 2 and 4 only

Agricultural trait selection does not use human genomic data.

29. D — 1, 2 and 3

All three statements are correct about major global genome initiatives.

30. A — 1 and 2 only

NDHM and ABDM may integrate genomic profiles in future precision-medicine systems.
CoWIN & NPR have no genomic relevance.

31. A — 1 only

- BIMSTEC recognises Blue Economy → TRUE
- BIMSTEC Centre for Weather & Climate is in **NOIDA, India** but **it is not formally recognised as BIMSTEC's marine wing** → ambiguous, treated incorrect
- BIMSTEC has NOT adopted a uniform Coastal Vulnerability Index → FALSE

32. A — 2 and 3 only

- BIMSTEC does coordinate ocean acidification work → TRUE
- Alignment with UN Ocean Decade → TRUE
- Coral reef missions are bilateral/trilateral, not full-BIMSTEC → FALSE

33. A — 1 and 3 only

- INCOIS provides tsunami warnings → TRUE
- NIOT does **not** manage coastal radar for all BIMSTEC → FALSE
- CMLRE does biodiversity studies → TRUE

34. B — Absence of binding legal obligations

BIMSTEC is consensus-based and voluntary.

35. A — Real-time offshore experimentation

Floating laboratories enable experiments away from the coast.

36. C — Bordered by EEZs governed by UNCLOS

The Bay of Bengal is surrounded by EEZs of multiple states.

37. A — 1, 2 and 3 only

Indonesia is **not** a member.

38. B — Dhaka

BIMSTEC Secretariat is in Bangladesh.

39. A — UN Decade of Ocean Science

A globally recognised programme.

40. B — Rainfall variability over India

IOD influences monsoons strongly.

Quantitative Technique

Passage-I

Explanation :

Total rent = $5500 \times 24 = 132000$

Total expenses on utility = $3400 \times 24 = 81600$

Total tuition fee = $250000 \times 4 = 1000000$

Total exp on study = $132000 + 81600 + 1000000 = 1213600$

Loan by bank = 80% of $1213600 = 970880$

Expanses bear by her = 20% of $1213600 = 242720$

41-C

42-A

43-C

44-A

45-C

Passage-II

Explanation :

BOYS = $2500 \times \frac{3}{5} = 1500$, GIRLS = $2500 \times \frac{2}{5} = 1000$

	HOCKEY	BOXING	TENNIS	FOOTBALL	VOLLEYBALL
BOYS	270	465	240	225	300
GIRLS	280	160	160	220	180

Total = 625
