How to use this list

CLAT's GK section — about a quarter of the paper — is built on news passages of up to ~450 words, each carrying five or six questions that test the passage *and* the static background behind it: the Article, the institution, the treaty, the first-ever. Legal Reasoning passages are frequently drawn from recent laws and judgments. Every theme in this list is written to that pattern.

The failed 131st Amendment Bill: Lok Sabha of 850 and delimitation

☒ Class 02
 ☐ Taught
 ☐ Revised

An April 2026 package of bills to expand the Lok Sabha to about 850 seats, redraw constituencies and advance women's reservation failed when the 131st Amendment Bill did not get a two-thirds majority in the Lok Sabha.

MUST KNOW

- 131st Amendment Bill proposed raising Lok Sabha seats from 543 to 850 (815 states, 35 UTs)
- Taken up on 16 April with Delimitation and UT Laws Bills; failed the two-thirds majority in the Lok Sabha
- Linked Delimitation Bill 2026 and UT Laws (Amendment) Bill were dropped
- Southern states objected to population-based reallocation of seats

STATIC LINK

- Art. 81 — composition of the Lok Sabha; Art. 82 — readjustment after each census
- 42nd Amendment froze seats on the 1971 census; 84th Amendment extended the freeze to the first census after 2026
- Delimitation Commissions set up in 1952, 1963, 1973 and 2002
- Art. 329(a) bars courts from questioning delimitation laws

LEGAL HOOK Art. 368(2) special majority; Arts. 81, 82, 170, 329(a)

CLAT ANGLE *Numbers and amendment-procedure questions; federalism passage on north-south seat shares.*

FOR FACULTY

- Plan the term from the **Master Board** — every A theme on one list.
- Tick **Taught** on each card as you cover it.
- Use **Appendix A** to build Legal Reasoning passages from current law.

FOR STUDENTS

- Revise every **A** theme first, then B.
- Tick **Revised**; use **Appendix B** to find the source issue.
- Read the **C** facts once now and again in the final month.

Coverage window. Issues January–September 2026 cover news from **1 Dec 2025 to 30 Aug 2026. September–November 2026 is not in this list** — it comes through CLAT Gurukul's daily newspaper briefs and monthly round-ups; plan revision to include it. 16 themes already taught in CLAT Gurukul GK classes carry the **Class** chip.

01.03 A Women's reservation: the 106th Amendment and women in ParliamentTaught ☐ Revised ☐

The Nari Shakti Vandan Adhiniyam 2023 reserves one-third of Lok Sabha and assembly seats for women, but only after a fresh census and delimitation; the failed 131st Bill had sought to bring this forward.

- MUST KNOW**
- One-third reservation, including within SC/ST seats, for 15 years with rotation
 - Begins only after a post-commencement census and delimitation
 - Earlier attempts: 81st Amendment Bill (1996), failed bids in 1998 and 1999; 108th Amendment Bill passed by Rajya Sabha in 2010 but lapsed in the Lok Sabha
 - Women were 4.9% of the 1st Lok Sabha and 13.6% of the 18th; the 17th was the high point at about 14.4%
 - Rajya Sabha has 39 women of 245; India ranks 147 of 190 in the IPU Parline ranking
 - Barriers: party gatekeeping, campaign finance, social norms

- STATIC LINK**
- 106th Amendment (2023) inserted Arts. 330A, 332A and 334A; Delhi covered via Art. 239AA
 - Arts. 243D and 243T — at least one-third seats for women in panchayats and municipalities
 - Art. 15(3) — special provisions for women; Art. 39(d) — equal pay for equal work
 - CEDAW ratified by India in 1993

Delays by Speakers and 'mergers' of legislators kept the anti-defection law in the news.

- MUST KNOW**
- Tenth Schedule added by the 52nd Amendment (1985); tightened by the 91st Amendment (2003)
 - Key cases: Kihoto Hollohan (1992), Nabam Rebia (2016), Keisham Meghachandra (2020)
 - Debates over Speakers' delays and 'mergers'

- STATIC LINK**
- 91st Amendment deleted the one-third 'split' exception
 - Kihoto Hollohan (1992) upheld the Tenth Schedule; Speaker's decision is open to judicial review

02.01 A SC on reservation: creamy layer test and open-category merit

Taught ☐ Revised ☐

Two Supreme Court rulings clarified how reservation works in practice: reserved-category candidates who score above the general cut-off must be considered for open seats, and income alone cannot decide whether an OBC candidate is in the creamy layer.

- MUST KNOW**
- Reserved candidates above the general cut-off must be considered for open (unreserved) seats
 - Open category is merit-based, not a caste compartment
 - Income cannot be the sole test for the OBC creamy layer
 - Court also addressed equivalence between government, PSU and private posts

- STATIC LINK**
- Art. 16(4) — reservation for backward classes in public employment
 - Indra Sawhney v Union of India (1992) introduced creamy-layer exclusion for OBCs

LEGAL HOOK Art. 16(4); Indra Sawhney (1992) framework — creamy-layer exclusion; meritorious reserved candidates migrate to the open category

06.01 A India's Ramsar sites climb from 96 to 101

Taught ☐ Revised ☐

India added wetlands to the Ramsar list all through the year. The count rose from 96 (Jan) to 98 (Feb), 100 (Jul) and 101 (Sep) — use the latest count, 101, and treat earlier figures as out of date.

MUST KNOW

- Latest count: Glaw Lake (Arunachal Pradesh) became India's 101st Ramsar site (Sep 2026)
- 100th site: Jai Prakash Narayan Bird Sanctuary (Surha Tal), Ballia, UP — an oxbow lake on the Central Asian Flyway
- Feb 2026: Patna Bird Sanctuary (Etah, UP) and Chhatri-Dhand (Kutch, Gujarat) took the total to 98
- Jan 2026: Siliserh Lake (Rajasthan, human-made, near Sariska) and Kopra Jalashay (Chhattisgarh's first) took it to 96
- Shekha Jheel (UP) also in news as a Ramsar site (May 2026)

STATIC LINK

- Ramsar Convention signed 1971 at Ramsar, Iran; India joined 1982
- World Wetlands Day: 2 February
- Kanwar Jheel, Begusarai, is Bihar's first Ramsar site

CLAT ANGLE

Count and state-site matching: 'Which is India's 100th/101st Ramsar site?' or 'Match the wetland to its state'. Earlier counts in older material are stale.

06.02 A Delhi-NCR air pollution: causes and legal framework

Taught ☐ Revised ☐

Delhi's winter smog returned, with vehicles, stubble burning, industry and coal plants as sources. The response mixes emergency action (GRAP), vehicle curbs, EV policy and a debate over exempting coal plants from sulphur scrubbers.

MUST KNOW

- Framework: Air Act 1981, NCAP, AQI, GRAP, CAQM
- About one-third of Delhi's PM_{2.5} is secondary aerosol, mainly ammonium sulphate from coal-plant SO₂ reacting with farm ammonia (CREA)
- Most coal plants were exempted from FGD (sulphur scrubbers) in 2025; IIT Delhi study says curbing SO₂ could avert about 1.25 lakh deaths a year
- From 18 Dec, non-BS-VI private vehicles registered outside Delhi barred; BS-VI mandatory nationwide from April 2020
- Delhi EV Policy 2.0 (from 1 July): only electric two-wheelers registered from April 2028; Rs 50,000 retrofit incentive for the first 1,000 cars converted to electric

STATIC LINK

- NCAP launched 2019
- CAQM for NCR created by statute in 2021
- GRAP has four stages, enforced in NCR by CAQM
- India leapfrogged from BS-IV to BS-VI, skipping BS-V
- Arts. 48A and 51A(g) — protection of environment

LEGAL HOOK

Air (Prevention and Control of Pollution) Act 1981; right to clean air read into Art. 21; Arts. 48A (DPSP) and 51A(g) (Fundamental Duty)

CLAT ANGLE

Passage on air pollution with a question on which authority/statute acts, or applying the Art. 21 right to a clean environment to a fact situation.

06.03 A India's climate targets: NDC 3.0 and 300 GW clean power

Taught ☐ Revised ☐

India submitted new 2035 climate targets under the Paris Agreement and crossed 300 GW of non-fossil power capacity on the way to its 500 GW goal for 2030.

MUST KNOW

- NDC 3.0: cut emissions intensity of GDP by 47% by 2035
- NDC 3.0: 60% non-fossil power capacity and a larger carbon sink by 2035
- India crossed 300 GW of non-fossil capacity (Sep 2026)
- Target: 500 GW non-fossil capacity by 2030

- STATIC LINK**
- NDCs are submitted under the Paris Agreement (2015)
 - 500 GW by 2030 was announced at COP26 (Glasgow)
 - Paris Agreement aims to keep warming well below 2°C, pursuing 1.5°C

CLAT ANGLE *Number-matching on targets (47%, 60%, 2035; 500 GW, 2030) and 'which treaty requires NDCs'.*

06.04 **A** COP30 Belem and the Tropical Forest Forever Facility

Taught ☐ Revised ☐

At COP30 in Belem, Brazil launched a fund that pays tropical countries for keeping their forests standing, instead of paying only for projects.

- MUST KNOW**
- TFFF proposed by Brazil, launched at COP30 in Belem
 - Pays countries for keeping forests standing
 - Amazon and Congo basins are key carbon stores; role of Indigenous peoples stressed

- STATIC LINK**
- UNFCCC adopted 1992 and opened for signature at the Rio Earth Summit; secretariat in Bonn
 - COP = Conference of the Parties to the UNFCCC

06.05 **A** Western Ghats eco-sensitive area: Gadgil vs Kasturirangan

Taught ☐ Revised ☐

The Centre is moving to finalise a large eco-sensitive area (ESA) in the Western Ghats through a seventh draft notification, based on the Kasturirangan report rather than the stricter Gadgil report.

- MUST KNOW**
- Seventh draft notification proposes a large ESA across six states
 - About 56,825 sq km of eco-sensitive area proposed
 - Based on the Kasturirangan report
 - Gadgil panel = Western Ghats Ecology Expert Panel (WGEEP), headed by Madhav Gadgil

- STATIC LINK**
- Gadgil (WGEEP) report 2011; Kasturirangan report 2013
 - ESAs/ESZs are notified by MoEFCC under the Environment (Protection) Act 1986
 - Western Ghats are a UNESCO World Heritage Site (2012)

06.06 **A** Project Cheetah: new batches and numbers

Taught ☐ Revised ☐

India's cheetah reintroduction continued, with a third batch arriving from Botswana after earlier batches from Namibia and South Africa.

- MUST KNOW**
- Eight cheetahs arrived from Botswana — the third batch
 - Earlier cheetahs came from Namibia (Sept 2022) and South Africa
 - Asiatic cheetah is Critically Endangered and survives only in Iran
 - International Cheetah Day: 4 December

- STATIC LINK**

06.07 **A** Great Indian Bustard: first Gujarat chick and the climate-rights ruling

Taught ☐ Revised ☐

A Great Indian Bustard chick hatched in Gujarat for the first time in a decade using an egg brought from Jaisalmer. The bird is also the subject of the Supreme Court case that recognised a right against climate change.

- MUST KNOW**
- First GIB chick in a decade in Gujarat
 - Hatched by the 'jumpstart' method using an egg from Jaisalmer

- STATIC LINK**
- GIB: IUCN Critically Endangered
 - GIB is the state bird of Rajasthan

LEGAL HOOK M.K. Ranjitsinh v. Union of India (2024) — SC recognised a right against the adverse effects of climate change under Arts. 14 and 21 (power lines vs GIB habitat)

06.09 **A** Disappearing lakes and the public trust doctrine

Taught ☐ Revised ☐

A CAG audit found most lakes in J&K lost or shrunk, exposing weak enforcement of wetland law; courts use the public trust doctrine to protect such water bodies.

- MUST KNOW**
- CAG found 518 of 697 lakes in J&K lost or shrunk
 - Framework: Wetlands (Conservation and Management) Rules 2017 and NPCA (merging NLCP and NWCP)
 - Swachh Association v State of Maharashtra (2025) cited

STATIC LINK • M.C. Mehta v Kamal Nath (1997) applied the Public Trust Doctrine in India

06.10 **A** Flash floods: causes beyond extreme rain

Taught ☐ Revised ☐

A study found most flash floods in India are not caused by extreme rain alone — soil moisture, basin shape and terrain matter — as events rise with warming.

- MUST KNOW**
- IMD treats more than 100 mm of rain in an hour as a cloudburst
 - IIT-Gandhinagar study (Nature Hazards): only about a quarter of flash floods trace directly to extreme rainfall
 - Warmer air holds about 7% more moisture per 1°C of warming
 - Jal Shakti data: flash-flood events rose from 132 to 184 (2020-22)
 - National Flood Commission estimated about 40 Mha of India as flood-prone

STATIC LINK

- Sendai Framework for Disaster Risk Reduction 2015-2030
- NDMA, under the Disaster Management Act 2005, is chaired by the Prime Minister
- About 75% of India's rain falls in June-September

06.11 **A** Carbon pricing: India's carbon market and EU's CBAM

Taught ☐ Revised ☐

The EU's carbon border tax (CBAM) began charging from January 2026, pushing Indian steel to decarbonise, while India builds its own Carbon Credit Trading Scheme with emission-intensity targets.

- MUST KNOW**
- EU's CBAM applies from January 2026
 - India has a Green Steel Taxonomy (2024) with star ratings
 - Steel routes: BF-BOF, DRI and EAF; levers include green hydrogen, scrap and CCUS
 - India's Carbon Credit Trading Scheme sets GHG emission-intensity targets

- STATIC LINK**
- Art. 6 of the Paris Agreement covers carbon markets
 - India's Carbon Credit Trading Scheme is notified under the Energy Conservation Act, 2001 (amended 2022)
 - National Green Hydrogen Mission approved January 2023

A MUST TEACH 9 themes

07.01 A Vikram-1: India's first private orbital rocket (Skyroot)

✓ Class 02

Taught ☐Revised ☐

Skyroot Aerospace's Vikram-1 moved to Sriharikota and flew as India's first privately built orbital launch, marking the opening of launch services to private firms.

- MUST KNOW**
- Vikram-1 is built by Skyroot Aerospace
 - Can carry up to 350 kg to low Earth orbit
 - Rocket moved to Sriharikota before launch
 - Mission name: Mission Aagaman

- STATIC LINK**
- Skyroot's Vikram-S (November 2022) was India's first privately built rocket launched (sub-orbital)
 - IN-SPACe was set up in 2020 to authorise private space activity

LEGAL HOOK Space sector reforms; authorisation of private actors through IN-SPACe; Outer Space Treaty 1967 (state responsibility for national activities, including private ones)

CLAT ANGLE *Passage on privatisation of space; questions on 'first private orbital' vs 'first private sub-orbital' and the regulator.*

07.02 A Artemis II and India's role in NASA's Moon plans

✓ Class 02

Taught ☐Revised ☐

NASA's Artemis II flew a crew around the Moon, the first crewed lunar trip since Apollo; later NASA invited ISRO to take part in its planned Moon base.

- MUST KNOW**
- Artemis II launched on 1 April 2026 on the SLS rocket with the Orion capsule
 - Crewed lunar flyby, not a landing
 - Carried the first woman and the first non-American to travel to the Moon's vicinity
 - NASA invited ISRO to join its Moon Base plans
 - India joined the Artemis Accords in 2023

- STATIC LINK**
- Apollo 11 made the first crewed Moon landing, July 1969

LEGAL HOOK Outer Space Treaty 1967: no national appropriation of the Moon; Artemis Accords are a non-binding set of principles

CLAT ANGLE *Space passage on the new Moon race; 'firsts' on the crew; match missions (Apollo, Artemis, Gaganyaan).*

07.03 A India's three-stage nuclear programme: PFBR criticality and thorium

✓ Class 02

Taught ☐Revised ☐

The 500 MWe Prototype Fast Breeder Reactor at Kalpakkam reached criticality, moving India into stage two of a programme built to use its abundant thorium; SMRs and new fuels widen the picture.

- MUST KNOW**
- PFBR (500 MWe) at Kalpakkam reached criticality — key to stage two
 - Stage 1 uses PHWRs, stage 2 the fast breeder (PFBR), stage 3 the AHWR on thorium
 - Programme designed around limited uranium and abundant thorium from monazite sands
 - Cameco deal supplies uranium
 - Thorium-HALEU fuel ANEEL for PHWRs completed a high-burnup test at Idaho National Laboratory

- STATIC LINK**
- Three-stage programme conceived by Homi J. Bhabha
 - PFBR is at Kalpakkam, Tamil Nadu, built by BHAVINI
 - Kudankulam Nuclear Power Plant is in Tamil Nadu, built with Russian cooperation
 - Atomic Energy Act 1962 governs nuclear power in India

LEGAL HOOK Atomic Energy Act 1962; SHANTI Act opening nuclear power to private players

CLAT ANGLE *Science-policy passage on energy self-reliance; questions on stage-reactor matching and why thorium matters.*

07.04 **A** India Semiconductor Mission 2.0 and the first chip plantsTaught ☐ Revised ☐

After 12 plants were approved under ISM 1.0 and Micron's Sanand unit began work, the Cabinet approved a much larger ISM 2.0 to deepen India's chip supply chain.

- MUST KNOW**
- ISM 2.0: Cabinet approved Rs 1.27 lakh crore, a six-year scheme with differentiated capex support
 - 12 plants approved under ISM 1.0
 - Micron's ATMP unit at Sanand, Gujarat began operations — India's first semiconductor facility
 - Rs 3,068 crore GaN mini/micro-LED display unit approved
 - Foundation laid for the first 3D glass chip packaging unit in Bhubaneswar

- STATIC LINK**
- India Semiconductor Mission launched December 2021
 - ISM functions under MeitY

07.05 **A** India's first hydrogen train and hydrogen transportTaught ☐ Revised ☐

India flagged off its first hydrogen fuel-cell train on the Jind-Sonipat route, after launching a hydrogen fuel-cell passenger vessel at Varanasi.

- MUST KNOW**
- First hydrogen train flagged off on 17 July 2026 on the Jind-Sonipat route
 - Built by ICF
 - Railway Board had approved the hydrogen-fuel-cell trainset
 - Hydrogen types: grey, blue and green
 - India's first hydrogen fuel-cell passenger vessel (LT-PEM) entered service at Namo Ghat, Varanasi

- STATIC LINK**
- National Green Hydrogen Mission approved in 2023
 - ICF (Integral Coach Factory) is in Chennai

CLAT ANGLE *Green-transition passage; 'India's first' and route questions; grey vs blue vs green hydrogen.*

07.06 **A** India AI Impact Summit 2026: MANAV vision and public AI tools✓ Class 01 Taught ☐ Revised ☐

At the India AI Impact Summit 2026 the PM set out the MANAV framework for human-centric AI and showcased government AI tools built on the IndiaAI Mission.

- MUST KNOW**
- MANAV: Moral and ethical systems, Accountable governance, National sovereignty, Accessible and inclusive, Valid and legitimate
 - PM proposed a global trusted data framework and a 'glass box' approach to AI safety
 - IndiaAI Mission includes subsidised GPU compute
 - Government AI tools: Bharat-VISTAAR, Adi Vaani, BharatGen, BHASHINI, SabhaSaar, Chitraklekha
 - Bharat-VISTAAR: multilingual AI farm advisory, Rs 150 crore in Budget 2026-27, helpline 155261 with AI assistant 'Bharati'

- STATIC LINK**

07.07 **A** ISRO's launch record: LVM3's heaviest payload, PSLV-C62 failure, GISAT-1ATaught ☐ Revised ☐

LVM3 lifted the heaviest payload ever carried by an Indian rocket on a commercial contract, but PSLV-C62 failed in January — PSLV's second failure in a row; GISAT-1A later replaced the lost GISAT-1.

- MUST KNOW**
- LVM3 launched AST SpaceMobile's BlueBird Block-2 (~6,100 kg), the heaviest by an Indian rocket, under an NSIL contract
 - PSLV-C62 with EOS-N1 and 15 other payloads failed on 13 January 2026
 - Second successive PSLV failure
 - GISAT-1A: Earth observation satellite replacing the failed 2021 GISAT-1

STATIC LINK • NSIL is ISRO's commercial arm under the Department of Space

• PSLV is a four-stage vehicle

CLAT ANGLE *Space passage weighing commercial success against reliability; 'heaviest payload' and vehicle-mission matching.*

07.08 **A** NavIC clock failures and GNSS jamming and spoofing

Taught ☐ Revised ☐

Another atomic clock failure left India's NavIC with few fully working satellites, while GNSS jamming and spoofing are rising worldwide.

MUST KNOW • Another IRNSS clock failed, leaving few fully working NavIC satellites
• GNSS interference is rising
• Jamming overpowers the signal; spoofing feeds a fake position or time

STATIC LINK • NavIC (IRNSS) is ISRO's regional satellite navigation system
• GPS (US), GLONASS (Russia), Galileo (EU), BeiDou (China), NavIC (India)

CLAT ANGLE *Strategic-autonomy passage; jamming vs spoofing distinction; match navigation system to country.*
